

# Na'il Garba

Software Engineer

## About me

With a decade's worth of experience in software development and design, I aim to advance every project I am a part of by being a creative and productive force. I've excelled in performance and target driven roles by delivering results consistently, and my open mind and ingenuity bring forth new developments that go even beyond the software development process to every workplace I venture into.

## Areas of specialization

Web/Software Development  
UI/UX • Consulting

## Technologies

JavaScript • React • Angular  
HTML/CSS • SQL • PHP  
C++ • NodeJS • Git • AWS  
WordPress • Figma  
REST API • GraphQL API

## Tech Skills

CI/CD • TDD  
Agile • Scrum  
Unit Testing  
Integration Testing  
System Testing  
Source Control  
Windows • Linux • Mac OS  
Task Prioritization  
Time Management  
Mentoring

## Soft Skills

Excellent Communicator  
Autonomous • Flexible  
Innovative • Goal Oriented  
Adaptive • Efficient  
Creative • Problem Solving

## Personal Interests

Fitness • Gaming • Anime  
Cuisine • Travel • Robotics  
Sports • Nature • Cars

## EXPERIENCE

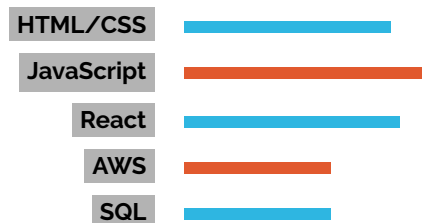

- 2021–2022 **infinitrac inc.**  
FULL-STACK DEVELOPER · Budapest, Hungary   
• Freed **over 35%** of server data storage space by designing improved memory management systems which allowed more clients to be assimilated into existing systems at no additional storage cost.  
• Brought about a **20% reduction** in average business process object completion time which generated a **10% increase** in positive user feedback by implementing **over 10** new UI components before allocated timeline to increase user focus, give better process visualization, and reduce task redundancy.
- 2022–2023 **National Information Technology Development Agency (NITDA)**  
SOFTWARE ENGINEER & CONSULTANT · Abuja, Nigeria   
• Alleviated **over 15%** of daily workload for an entire department through the elimination of a tedious hour long document filling process by developing an automated file creation and management system.  
• Drove innovation by actively collaborating with cross-functional teams to deliver pioneering solutions and achieving multiple **top 3** positions in both local and international competitions.
- 2022–2023 **Comsoft Ltd.**  
FRONTEND DEVELOPER & UI/UX DESIGNER · Abuja, Nigeria   
• Drove mobile usage of an application up by **over 20%** in one month by employing responsive layouts to optimize the user experience.  
• Shortened several project timelines by weeks as a result of expedited developer workflows from improved team coordination by establishing more effective and efficient task management and communication systems.

## EDUCATION

- 2017-2021 **Computer Science BSc**  
EÖTVÖS LORÁND UNIVERSITY   
· Budapest, Hungary 
- 2016-2017 **Computer Engineer BSc**  
UNIVERSITY OF GEORGIA ·   
Athens, GA, USA 
- 2012-2016 **IB Diploma**  
NORCROSS HIGH SCHOOL ·   
Norcross, GA, USA 

## PROGRAMMING

## PROJECTS

- AthMeet** Independently developed fitness multi-platform application built with **Type-script React Native and AWS.**
- UPay** A multi-platform bill payment and tracking system for high customer volume built with **React Native Typescript.**
